**DETAILED ACTION**

***Response to Amendment***

1. Newly submitted claims 17-29 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the original claims directed to a subcombination, a bone anchor and the newly submitted claims directed to a combination a bone anchor insertion device. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the bone anchor insertion device as claimed can be used with a bone anchor other than the bone anchor as claimed in the subcombination. The subcombination has separate utility such as it can be used with other insertion device than the insertion device as claimed in the combination.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 17-29 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. The reply filed on 6/2/2003 is not fully responsive to the prior Office Action because: there is no claim to exam. Since the period for reply set forth in the prior

Art Unit: 3731

Office action has expired, this application will become abandoned unless applicant corrects the deficiency and obtains an extension of time under 37 CFR 1.136(a).

The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. In no case may an applicant reply outside the SIX (6) MONTH statutory period or obtain an extension for more than FIVE (5) MONTHS beyond the date for reply set forth in an Office action. A fully responsive reply must be timely filed to avoid abandonment of this application.
